## TAILOR ED 1:1 CONSULTATION

We will contact you when appointments become available for consultation.

You will be able to make an appointment for consultation on a specific target by calling the office. The consultations are for parents only. We will not work directly with your child during consultation.

All project workers have available slots and it is possible to request a specific project worker if you would like to. This might be the project worker who completed the initial assessment, or who has worked with your family previously.

During these consultations the project worker will help you assess the target area you would like to focus on and help you develop an intervention plan and give guidance on implementing this. You can then book in further consultations with the same project worker if you wish.

Consultations will be available at several venues throughout the city or alternatively, over the phone.

Where necessary, the project worker can make occasional home visits and can be contacted by phone or email in between appointments. However, the parent will be responsible for implementing the strategies. We will aim to keep in touch to see how things are progressing but it is really helpful if you keep us updated.

You are welcome to get back in touch regarding the same issue or about a new problem via the same system of booking an appointment for consultation.

Please feel free to contact us if you want to find out when you can access this service.

If whilst you are waiting your circumstances change, including practical things like changes of address or contact number, it would be really helpful if you could let us know.

You can contact the office on 0131 6248970 or by emailing [contact@tailoredfoundation.co.uk](mailto:contact@tailoredfoundation.co.uk)
