TAILOR ED WORKGROUPS

We will contact you to invite you to attend a workgroup appropriate for the target we have identified for you.

A workgroup consists of a group of parents (usually 4 – 6 per group) who are dealing with the same difficulty. Please be aware that these are just for parents. There may be a session specifically designed for you to bring your child, but you would be notified if we were going to do this.

Workgroups are organised at various locations across the city, depending on who will be attending. They run approximately once a fortnight, and there are usually 6 sessions per workgroup series.

The project worker who is running the workgroup will provide information and guide you through assessing the target and implementing strategies. The project worker will make occasional home visits once the workgroup is underway, to support you in implementing these strategies.

The final session will allow you to review the progress you have made. Some families find that a workgroup solves the issue completely, others find it gives a good background but they then move on to consultation or homebased interventions to obtain further support.

Workgroups for 2015: Essential 6 (April 2015) and a second group later in the year

Diet (April 2015)

Riding a bike (Summer 2015)

Appointments (Autumn 2015)

Independent personal care (Autumn 2015)

Disclosing diagnosis (schedule to be confirmed)

Please feel free to contact us if you want to find out which groups are coming up and what you will be invited to attend.

If whilst you are waiting your circumstances change, including practical things like changes of address or contact number, it would be really helpful if you could let us know.

You can contact the office on 0131 6248970 or by emailing contact@tailoredfoundation.co.uk

This is a service available to families referred to Tailor Ed.
