Circle Time

Weekday mornings and afternoons

You can now wrap up the day with a Circle Time as well as start it with some familiar structure. The activities will be slightly different but will follow the same format.

Circle times last around 15 minutes and are led by two of our Project Workers. As well as some familiar structure and songs we'll also read a visually supported book each session. Some kids like to join in with everything and some just have it on in the background whilst they play. So don't worry about your child sitting down to watch all of it, just come and join in however they would like.
